

Domaine des Ardoisières

Vin des Allobroges Rosé Cuvée Argile

ABOUT THE ESTATE

- This ancient region, planted to vine as early as 120 BCE, produces wines from Gamay, Mondeuse Noire, Persan, Jacquère, Chardonnay, and Mondeuse Blanche.
- The seven-hectare estate is planted over two steep and rocky vineyard sites - one in Cevins and the other in Saint-Pierre-de-Soucy.
- Biodynamic principles have been utilized since the vineyards were cleared and replanted starting in 1998.
- Wines are fermented with native yeasts. No sulfur is used during vinification and only one gram at bottling.
- The Ardoisières wines are mineral, pure, and unique, reflecting this singular mountain terroir.
