

Claude Dugat Gevrey-Chambertin 1er Cru

ABOUT THE ESTATE

- Domaine Claude Dugat was established as its current incarnation in 1991, though the family has roots in Gevrey that stretch back to the 19th century.
- Claude's children, Bertrand, Laetitia, and Jeanne now run the estate, bringing their know-how along with new ideas.
- Farming is organic and biodynamic, all the better to be able to restrict the use of sulfur, chaptalization, and acidification.
- Work in the cellar has evolved as well, with less extraction and more restrained oak influence.
- These wines take advantage of the fantastic vineyard sources the Dugat family has had for generations by placing the quality of the fruit first and avoiding manipulation.
