Niepoort - Non-Alcoholic
Mosel Riesling Dealcoholized

ABOUT THE ESTATE
- Niepoort has long been defined by curiosity and innovation, and with the growing involvement of the sixth generation, its cross-European relationships continue to expand.
- Mosel was selected as the source for this wine due to its steep slate vineyards and cool climate, which naturally yield high acidity, low potential alcohol, and a precise, delicate profile.
- Fruit was sourced from multiple growers specifically for this project, with an emphasis on old vines to provide added concentration and balance.
- The wine undergoes traditional vinification followed by gentle vacuum distillation, preserving Riesling's delicate aromatics and maintaining clarity of citrus, stone fruit, and mineral character.
- Drink Me offers a bright, dry, and refreshing profile that delivers the precision and drinkability of Mosel Riesling in a thoughtfully executed non-alcoholic format.

APPELLATION
Mosel

GRAPE VARIETY
100% Riesling

FARMING
Sustainable - Lutte Raisonnée

SOIL
Slate

VINEYARDS & VITICULTURE
The Mosel region in Germany is globally recognized for its wines, originating from steep slopes and slate soils that provide vibrant acidity and unique minerality. From 40-year-old vines.

HARVEST & VINIFICATION
Hand harvested. Aged for 10 months in stainless steel vats. Drink Me is a Riesling that has been dealcoholized using vacuum distillation, one of the gentlest and most effective methods for preserving the wine's aromas and flavours.

ALCOHOL BY VOLUME
0.0

PACK SIZE
12x750mL
